

REC'D FEB 08

**THE CROWNED RIDGE WIND
PROJECTS ARE GOOD FOR OUR
COMMUNITY.**

We say YES to Windfarms. Clean,
green energy as to air pollutants and
contaminated water resources. The zoning
board has approved hog + dairy operations.
Why not windpower. Give all landowners
the opportunity to be prosperous
on their land, to help increase jobs
and to bring higher tax benefits over
the life of this project.

Sincerely,

Arnto + Edward Karnl
