To Whom it May Concern

I have recently been informed of the Dakota Range Wind Project taking place by my residence. I feel it to be detrimental to my property and living standard where I currently reside. Also the fact that my road that I frequent every day will be congested with the constant traffic of cement trucks and personal vehicles, ruining a perfectly good road. An also I believe it would be good if the new turbines would be set no closer than 3/4 miles away from my property line. Any closer would reveal an extreme issue that I will not tolerate. It effects too much regarding the value of my property and that I will not condone the inconviences that will come along with this.

Thank you.
