

I am very concerned about the wind towers that are coming to my family's backyard. I moved to north east South Dakota for the beauty and wide open spaces. Your plan to place 49 towers here will devastate the land. These towers are 550 feet tall and they want to build them only 700 to 1000 feet from homes. There is NO person that would ever say that is okay. I live in god's country and one of the most beautiful places in South Dakota. These towers will destroy the landscapes natural beauty, and devastate my property value and others. Why would anyone ever buy property in the middle of a bunch of 550 feet towers? Would you? This is my home, where I'm raising my family. It will destroy my home and Codington County. Please, something has to be done to stop this!

Sincerely,

Wade Bauer
