What is the 4-H Cloverbud Program?

Exploring, asking questions and an eagerness to learn is what makes the Cloverbud age such an exciting time! The Codington County 4-H Cloverbud program, specifically designed for children ages 5-7, appeals to a child's natural curiosity, enthusiasm for learning, and high energy level. Offering a wide variety of activities and experiences, in a non-competitive environment, encourages children to explore and think about the world around them. Your child is sure to learn and grow through Cloverbuds!

The Codington County 4-H Cloverbuds will begin in November 2023. Register your child now at the Codington County Extension Office or call 605-882-6300 for more information. Cloverbuds meet once a month in Florence, Waverly & Watertown.
